

The AP Academy

at St. John's High School

HOME OF THE MIGHTY

ISLANDERS

Scholars of the Island...

Citizens of the World.

The Summer Institute:

June 9 and 10, 2015

Upon acceptance into the AP Academy at St. John's, your student must attend the two-day **St. John's AP Academy Summer Institute June 9-10, 2015.**

At St. John's, every student is the responsibility of every adult. The Summer Institute is an opportunity for St. John's AP teachers to meet one-on-one with your child, assess his or her needs, and provide him or her with the materials and information necessary to hit the ground running in August.

Our Vision:

to prepare students for post-secondary education by exposing them to **4 years of college-level rigor** while still in high school.

Advanced Placement courses require students to learn in an accelerated format that culminates in a nationally standardized AP exam. Students who pass the exam may earn up to 3 college credit hours per exam taken.
